RESPONSE D

In the claims:

The claims as shown below are in their last-amended form. No claims are amended in this paper.

16. (Previously Amended) In a system for providing future programming information, in which system displayable indicia are pre-associated with commands at a head end and provided as a part of the future programming information in a displayable data stream, a set top box, comprising;

- a broadband receiver to receive the displayable data stream;
- circuitry to select the future programming information, including the displayable indicia, and to cause it to be displayed; and
- user-operable apparatus to select the displayable indicia;

characterized in that, in response to selecting the displayable indicia, the command associated with the selected displayable indicia is executed.
